# END ILLEGAL US DETENTIONS

Guantánamo symbolizes the US government's disregard for international law in its counter-terrorism efforts. It is just one part of a wider system of indefinite and secret detentions, enforced disappearance, renditions and torture and other ill-treatment.

Amnesty International's petition to end illegal US detentions is based on a framework that outlines steps that the US authorities must take to end this outrage.

## SIGN THE PLEDGE:

"I sign up to Amnesty International's framework for ending illegal US detentions. The US government must end the CIA secret detention programme and close the Guantánamo detention facility, in a way that respects the rights of detainees.

The US government must end the practice of enforced disappearance, secret transfer of detainees, torture and other ill-treatment, indefinite detention without charge and trials by military commission."

Signed: .....

Full name: .....

Country: .....
